Your Sourcing Partner for Hard-to-Find Electronic Components

Obsolete | Planned Obsolescence | High Lead Time | End of Life

info@nikivyasemiconductor.com | +91 6262 2727 56 | nikivyasemiconductor.com

Who We Are

Nikivya Semiconductor is the electronic components sourcing division of Nikivya India Exim Pvt Ltd. We specialize in sourcing components that your usual distributors can't deliver — hard-to-find, obsolete, end-of-life, and high-lead-time parts.

Sourcing Specialist

Not a volume reseller — we find components others can't source, managing the full import chain from our global network to your warehouse.

India-Based Authority

Gurugram HQ sourcing through our agent and distributor network in Shenzhen, Hong Kong, and global markets. Full Indian customs and logistics handling.

Single Point of Contact

You deal directly with the founder, not a call center. Every BOM gets personal attention from sourcing to delivery.

What We Source

We specialize in the components that keep your production line running when standard channels fail.

01

Hard-to-Find Components

Parts that DigiKey, Mouser, and major distributors list as out of stock. We source from networks they don't access.

02

Obsolete Components

End-of-life parts still critical to your existing product lines. 328,000+ EOL notices issued in 2023 alone.

03

Planned Obsolescence

Components approaching EOL. We help you secure stock before the manufacturer pulls the plug.

04

High Lead Time Components

Your distributor says 52-week lead time. We cut that to 4-8 weeks through alternative sourcing channels.

Our Line Card

We source across 80+ manufacturer product lines through our global agent & distributor network

Infineon

Renesas

ROHM

onsemi

Texas Instruments

Analog Devices

NXP

STMicro

Vishay

Kyocera AVX

TDK

muRata

YAGEO

KEMET

Microchip

Littelfuse

Semtech

MPS

Nordic Semi

Winbond

Panasonic

TE Connectivity

BOSCH

Qrectel

Melexis

Nuvoton

Everlight

Rubycon

Capacitors • Resistors • ICs & MCUs • Discrete Semiconductors • Power Management • Inductors • RF & More

These are representative brands — our sourcing network covers the full electronic components spectrum

How We Work

From BOM to delivery — one invoice, one point of contact.

1

You Send Your BOM

Share your Bill of Materials
— any format. We'll
standardize and analyze it.

2

We Source & Quote

Pricing and availability
across our global network.
Optimized BOM splits for
cost and speed.

3

We Procure & Import

Orders placed, shipments
tracked. Full customs
clearance and quality
verification.

4

You Receive Components

Delivered to your
warehouse with full
documentation. GST invoice,
packing list, COA.

Industries We Serve

Component sourcing expertise across India's core manufacturing sectors

Automotive

IoT & Smart
Devices

Telecom &
Networking
